## 40th Stationary Source Sampling and Analysis for Air Pollutants

September 2015

Dear Colleagues:

As Chairs of the 40th Conference on Stationary Source Sampling and Analysis for Air Pollutants (SSSAAP), Tina and I would like to announce the opening of registration for the 2016 conference that will be held March 20th through March 25th 2016 at the Grand Hotel Marriott Resort in Point Clear, Alabama.

Recognition, interest, and registration for the SSSAAP conference have grown significantly over the years. The sessions are held in a single meeting room with only one session sitting at any one time - a design greatly valued by our attendees. We encourage open discussion in all sessions and we expect information to flow between the presenter and the audience.

The conference has sold out over the last several years by early December, therefore we strongly suggest that you register early. All speakers and presenters must register. It is SES policy to limit registration to the first four registrants from each company with possible exceptions for presenters, session chairs, SES leadership, Hall of Fame members, and major sponsors. Additional registrants from that company will be placed on a waiting list.

This year we will have a collection of sessions which include traditional topics as well developing ones. Promoting safety on the job, sharing, and learning will be fundamental features of the program.

The QSTI and QSTO exams will also be offered during the conference week as an added convenience to the participants.
