44th Conference for Stationary Source Sampling and Analysis for Air Pollutants

August 8, 2022

Dear Colleagues,

As Chairs of the 44th Conference on Stationary Source Sampling and Analysis for Air Pollutants (SSSAAP), Tommy and I would like to announce the opening of registration for the 2023 conference that will be held April 2 – April 7, 2023, at the Sheraton Bay Point Resort in Panama City Beach, Florida.

Recognition, interest, and registration for the SSSAAP conference have grown significantly over the years. The sessions are held in a single meeting room with only one session sitting at any one time – a design greatly valued by our attendees. We encourage open discussion in all sessions, and we expect information to flow between the presenter and the audience.

The conference has sold out over the last several years by early December; therefore, we strongly suggest that you register early. All speakers and presenters must register for the conference and will be allowed to register a week prior to general registration opening.

This year we will have a collection of sessions which include traditional topics as well developing ones. Promoting safety on the job, sharing, and learning will be fundamental features of the program.

The QSTI and QSTO exams will also be offered during the conference week as an added convenience to the participants.

REGISTRATION FOR 2023

Registration Opening Date: October 7, 2022

Acceptance Criteria: General registration is on a first come, first served basis*

Payment: Full payment is due at the time of registration**

We look forward to seeing you at the conference. Space is limited, so please register early!

Best Regards,

Wade Bice
Conference Chair
