

The Nicklaus Course at Bay Point Golf Club is the first and only Nicklaus Design in Northwest Florida. Recognized for its premium conditioning and risk reward opportunities, The Nicklaus Course is set against the backdrop of St. Andrew's Bay and a marshland wildlife sanctuary. Panoramic vistas of the bay, marsh and scenic wetlands abound throughout the course as it stretches more than 7,000 yards from the championship tees.

In the summer of 2018, The Nicklaus Course underwent a greens conversion which involved the full-till process. This process included the original specs of the greens sprigged with Tif-Eagle Bermuda-Grass, a major upgrade to the ultra-dwarf grass. The greens renovation will improve course playability, green speeds and green receptiveness year round.

The renovation also included all new green-side bunkers on all the holes on the Nicklaus Course. The course opened for public play starting October 8th, 2018.

Originally designed by Bruce Devlin in 1986 (as Lagoon Legends) and renovated by Nicklaus Design in 2005, Bay Point Golf Club is the only Nicklaus Design golf course in Northwest Florida. With 18 holes of Championship Golf, Bay Point Golf Club is one of the top resort destinations along the Emerald Coast. The par 72 Nicklaus Design championship layout stretches over 7,000 yards from the back tees with a challenging course rating of 74.5 and slope of 137 and has hosted numerous regional and local events including the USGA U.S. Open Local Qualifier in 2016 & 2021.

The signature fifth hole offers a spectacular tee shot to an island fairway in the middle of the Grand Lagoon with a second shot to a peninsula green overlooking St. Andrews Bay.

Member for a day service and immaculate course conditioning highlight the experience at the Nicklaus Course at Bay Point. Public play is welcome seven days a week.
